The above mentioned floor covering products must be installed using the specified Kiesel products listed in this recommendation table.

All Kiesel products must be applied strictly in accordance with the instructions provided in the respective Kiesel Technical Data Sheets, including all applicable installation methods, substrate requirements, open time, working time, coverage, and jobsite conditions.

For commercial projects, please contact the Kiesel Technical Department before commencing installation to confirm any additional project-specific guidelines.

In case of doubt, contact the Kiesel Technical Department of North America before proceeding.

The aforementioned information, especially the suggestions for processing and utilizing our product, is based on our knowledge and experience. We recommend that you carry out your own tests in every case to ensure the suitability of our products for the intended process and processing purposes as different materials and the working conditions which lie beyond our area of influence. No liability can be derived from this advice or from verbal advice, unless we are responsible for (criminal) intent or gross negligence in this respect.
